Katrina –

We've completed the evaluations and summaries of the 20 areas of concern we investigated. Unfortunately, Jon just became ill and had to go to an urgent care facility, so the report will not likely get to you until Monday. We apologize this has taken this long to put the report together, but it was large volume of data to sift through and make sense of. I think this information will go a long way toward focusing the RI on appropriate remedial alternatives and prioritizing next steps.

Best regards,

Tom
